STUDENT COORDINATOR : KRIPA GRACE CHERIAN (Ph: 8078205358)

UPANISH V H : 7902996566

ACTIVITY REPORT

"Into the Wildology," an intercollegiate quiz competition organized by the Zoology Department, brought together 30 enthusiastic participants to test their knowledge of wildlife and biodiversity. The competition commenced with a preliminary written test that screened candidates, shortlisting 10 teams for the main event, which was further narrowed down to five finalists. Under the expert guidance of quiz master Dr. R. Aruna Devi, the five finalist teams competed through engaging rounds including "Identify the National Park," "Vocalists" (identifying animal sounds), "Rapid Fire," "People for Animals," and "So Exotic" (identifying exotic mammals). The competition witnessed intense participation, with the first prize being claimed by the talented duo Abhinav K Ashokan and Alex Jose from CUSAT, Kalamassery, who won a cash prize of ₹4,000, while Dony J John and Niranjana B Nair (St. Thomas College, Palai) secured the second position, earning ₹2,000. The event concluded with Dr. R. Aruna Devi distributing prizes and certificates to the winners. The quiz was organized in collaboration with Government Arts and Science College, Elanthoor, making it a successful inter-institutional academic endeavour that celebrated wildlife knowledge and conservation awareness.

FEEDBACK ANALYSIS

The Wildlife Quiz Competition received overwhelmingly positive feedback, with participants consistently rating organization and hospitality at 5/5 and praising the event's educational value, well-designed question rounds (especially picture and sound-based formats), and informative content about wildlife conservation. However, the most significant recurring concern was the mixing of undergraduate and postgraduate students in the same competition, with multiple participants strongly recommending separate categories to ensure fair competition among peers at similar academic levels. Additional constructive feedback included suggestions to implement "pounce rounds" in finals to reduce luck factors and give all teams equal scoring opportunities, as well as avoiding overly technical taxonomic terms like "Proboscidea" without explanation, as these created unnecessary confusion. Despite these minor issues, participants expressed strong enthusiasm for the program to continue annually, indicating the event successfully achieved its goal of broadening knowledge about wildlife conservation while creating an engaging, competitive atmosphere that left attendees wanting more similar opportunities in the future.

FEEDBACK FORM

The screenshot shows a Google Docs interface with a document titled "Feedback analysis - Claude". The document content is a feedback form for a quiz competition. The form includes a title "INTO THE WILDOLOGY- FEEDBACK", a welcome message, a user profile section for "sanyam87@gmail.com", and four required text input fields: "Name", "Name of college", "Class and Department", and "Contact Number and Email ID".
